EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1, after the title:

This application is the U.S. national phase of international application PCT/FI00/00695 filed August 20 17, 2000, which designated the U.S.

Allowable Subject Matter

Claims 20-24 and 26-38 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments regarding previous rejections based on Witham, Jr. (US 1,629,607), Elderkin (US 2,706,434), or Beachler (US 2,748,670) are persuasive. The amended claims now read over the prior art. It is acknowledged the prior art does not disclose or teach a wire pit having at least the claimed limitation of a chute in an upper portion of the wire pit wherein the chute forms a lower surface of the upper portion of the wire pit. The prior art wire pits cited herein cannot be considered to have a chute as defined by the present invention for receiving white water from the paper machine.

The amendment to claim 30 has overcome the objection set forth previously.
